Motion to return 50.000,00 Euro loan, which has been set aside to IPETA, because the reason and asis for the loan is not existing any longer since the ownership has changed.

In 2012 the IPC Plenary granted a loan of 50 000 EUROS to IPETA, then a private company to promote a professional skydiving tour.

So far, IPETA did not achieve the goals , for which it was founded for. It seems to only loose money rather than making any profit, so far.

In this view, the change of ownership seems to be a positive sign for IPC, especially because IPETA is fully owned by the FAI in the meantime.

There is no more reason for IPC to keep up the loan for the IPETA-company, which is not owned by the IPC, which is only spending/loosing money rather than creating a profit.

The motion is to return the 50.000,00 Euro to IPC in order to use it for the benefit of competitors participating in competitions.

Using an average sized Canopy Piloting competition for an example, which has up to 100 competitors per year, the proposal is, to reduce the sanction fee for each competitor.

Using the IPETA loan to cover the full entry fee for each CP-competitor the IPETA loan would cover the sanction fee for all competition until 2020.

With a partial reduction of 50 Euros of the sanction fee, each competitor up to 2025 would have to pay only 40 Euros for every competition .
